

FIELD SKETCH — SHIELD HALL

The shields on the racks are old. Legion issue, or close to it. Most carry damage marks and old repairs. But on the iron boss of each shield, someone has cut a symbol.

Five symbols repeat across all fifteen shields:

Three shields show the first symbol.

Three show the second. Three the third.

Three the fourth. Three the last.

The symbols are not Latin.

[Field note, charcoal on scrap leather. Not a formal document.]
